ADITHYA C

Python Full-Stack Developer

+91 8848697024 | adithyaaneesh29@gmail.com | Github | LinkedIn | Kannur

Motivated Python Full-Stack Developer with hands-on experience in **Django, REST APIs, React.js, and MySQL**. Skilled in building responsive UIs, secure backend systems, and scalable application architectures. Experienced with Git-based team workflows, debugging, performance optimization, and delivering end-to-end product features. Strong problem-solving skills with a focus on clean code and user-centric design.

EXPERIENCE

Maitexa Technologies Pvt. Ltd. | *June 2025 – Present*

Python Full-Stack Developer Intern

- Built a responsive authentication system using **React.js, HTML, CSS, and JavaScript**, improving user login flow.
- Developed and integrated secure **REST APIs** using **Django** and **MySQL** for multiple backend modules.
- Resolved development and production bugs, resulting in improved application stability and performance.
- Collaborated using **Git** and **GitHub**, handled pull requests, and resolved merge conflicts.
- Delivered features across the full development lifecycle including testing, deployment, and optimization.

PROJECTS

Parking Reservation System (Django, DRF, Razorpay)

- Developed a scalable **RESTful API** for parking slot booking and reservation management. Implemented **Razorpay** payment gateway integration for secure online transactions with **QR code** generation.

  GitHub

Swiggy-API (Django, DRF, PayPal)

- Engineered a **RESTful API** for food order and delivery with **PayPal** payment integration, authentication, validation, and error handling.

  GitHub

Life-Link (Django, Python, Bootstrap, Matplotlib, Pillow)

- Developed a role-based system for managing **donors, patients, hospitals, and blood inventory**.
- Implemented secure authentication, profile management, and analytics dashboards using **Matplotlib**.

- Designed a responsive UI with **Bootstrap** and optimized database structure for faster data access.

  [GitHub](#) | [Live Demo](#)

Urban Tote Co. (React.js, CSS, Vercel)

- Created a fully responsive e-commerce frontend with **product listings, cart, and checkout workflows**.

- Used **React Hooks** for state management and deployed on Vercel with optimized performance.

  [GitHub](#) | [Live Demo](#)

Organic Store (HTML, CSS, JavaScript, GitHub Collaboration)

- Collaborated with a team to design an **e-commerce website**, implementing responsive layouts and reusable components.

- Managed code contributions via **Git and GitHub**, resolving merge conflicts and ensuring smooth version control.
